## GRAND KNIGHTS COLUMN

The weather is getting cooler, the leaves are starting to change cooler and we continue into the busy season for our council. This month's activities include the Landing Day/ Founder's Day banquet celebrating 125 years of the Knights of Columbus as well as the 2nd and 3rd Degree ceremonies.

Remember, October is the Month of the Rosary. Many of our meetings are preceded by recitation of the Rosary by our members. Do you carry a Rosary with you and pray it daily?

Next month we start our Booyah season and there is a 1st Degree ceremony for new members preceding our November meeting. If you know a man that would be a good member... ask him!

Further details on these and other events can be found in the newsletter and will be discussed at our monthly meetings.

Fraternally,  
Dan Barrington, Grand Knight

## BLOOD IS MEDICINE (reprinted from Red Cross One-A-Week News)

After a healthy adult donates about one pint of blood, it is usually separated into components to treat several patients. Blood is rarely transfused whole, because most patients don't need all of the components in blood.

**Red blood cells** are given to people who lose blood in accidents or during surgery. Red cells also help anemic people whose bodies can't make enough red cells.

**Platelets** help control bleeding in people who can't make their own platelets; for example, patients receiving cancer medicine.

**Plasma** is given to burn patients and critical-care patients. In addition plasma is made into several special medicines. Albumin is used treat people in shock. Hemophiliacs need anti-hemophiliac factor to replace the blood clotting protein-Factor VIII-that's missing in their plasma. Immune globulin is given to people to help fight infectious diseases, like hepatitis.

## RESPECT LIFE MONTH

The US Bishops have designated October as "Respect Life Month". In his message to the 125th Supreme Convention, His Holiness offered words of praise and thanks to the Knights for continued efforts on behalf of the born and unborn and asked for renewed commitment to the sanctity of life from conception to natural death. His Holy Father urged, "By drinking ever more deeply from the wellsprings of God's love, you will be transformed ever more perfectly into the likeness of Christ, so that you can proclaim his 'Yes' to the world around you."

Supreme Knight Carl Anderson shares, "Respect Life Month in October and the Day of the Unborn Child on March 25th are important opportunities for Knights to join with others in prayer for the unborn, a prayer that must continue every day of the year."

## Charity

### THE EXECUTIVE COMMITTEE RECOMMENDS THE FOLLOWING CHARITY REQUESTS FOR APPROVAL:

1. \$300 for the annual "Shop with a Cop" program sponsored by the Green Bay Police Department. Police officers provide funds to needy children during the holidays so that they can purchase gifts for their families and friends.

2. \$350 for the annual "Thanksgiving Food Basket" program supervised by the Social Concerns Committee of St. Bernard's Parish.

### FACT FINDERS

To help educate consumers about the need for and value of adequate life insurance protection, the Life Insurance Market Research Association (LIMRA) has published the following five facts. These statistics are certainly worth considering.

Fact 1: Nearly three fourths of North Americans agree that life insurance is the best way to protect against premature death of the primary wage earner.

Fact 2: Twenty-four million households have no life insurance protection at all. Almost one third of adults have no life insurance protection.

Fact 3: Forty-four percent of all households either don't own life insurance and believe they should, or own life insurance and believe they need more. Among those that already own some life insurance, 40 percent believe they don't have enough.

Fact 4: One fourth of primary wage earners feel they do not have a plan in place to provide a decent standard of living for their family if they died tomorrow. Twelve percent of families would immediately have trouble meeting everyday living expenses and another 15 percent would have difficulty keeping up after several months.

Fact 5: People would like to discuss life insurance with a financial professional. Consumers feel buying life insurance is an important and complex financial decision. Half of them find it difficult to decide how much to buy, and 43 percent worry about making the wrong decision.

I'd like to meet with you in your home, at your convenience. I'll work with you to make sure your family is protected. As a brother Knight you can trust, I'll take the stress and worry out of the buying decision. Give me a call.
